BIG PATRIOTIC DEMONSTRATION

In St. Paul's Cathedral in London in Which British and Americans Join—Old Glory Floats From Parliament Building

(By Associated Press)

London, April 20.—Numbers of British people and Americans living in London took part today in a great patriotic service in St. Paul's Cathedral to celebrate the entrance of America into the world war of the side of the Allies. It was one of the greatest services the city has witnessed since the start of the war and was attended by the heads of the government and hundreds of the American residents of the city. The Stars and Stripes were flown from the highest tower of Parliament building at Westminster, the first time that a foreign flag has been displayed from the building.

The cathedral seats more than 4000 people and it was crowded to its fullest capacity, the utmost resources being occupied by vast numbers unable to obtain seats. Every seat was occupied when King George and Queen Mary entered the church to take their places in the chancel.

One of the most striking features of the procession was a group of veterans of the American Civil war carrying the American flag and a banner inscribed, "American Civil War Veterans; Not for Ourselves But for Country."

When the Star Spangled Banner was played the great audience rose to its feet as one person, remaining standing until the last echo of the American national anthem had died away through the great arches and

domo of the massive building. The people sang in a low tone the words of the one verse which was played, and when the last line was reached, "the home of the brave," the King turned to the Queen and nodded his head.

BRITISH FORCE TURKISH LINES

London, April 20.—General Maude, commanding the British forces operating in Mesopotamia, has forced a passage through the Turkish lines on the Shatt-el-Adhien, capturing many prisoners. It was officially stated by the war office. So far the British have taken 1244 Turkish soldiers as prisoners.

General officers in command of the British forces operating in Egypt in an official statement to the war office that on April 17 the British advanced into the southern sector of Palestine for a distance of six and one-half miles.

PRESIDENT ELLIOTT HAS RESIGNED

Boston, April 20.—Howard Elliott, president of the N. Y. N. H. & A. R. R. road has resigned to accept a federal appointment as a member of the railroad commission of national defense.

German Attempts to Counter Attack Have Been Made With Great Determination, But Without Effect on New French Lines

HAVE YOU SEEN THE AIRPLANE?

If you haven't seen the airplane you are in the class that believes it is only imagination. It is not a machine from the navy yard, that is certain. Then what is it? The men in charge of investigating the stories are skeptical about its really being one. The crowds on Wednesday night were so numerous in their reports that it has formed the conversation there is some one "flying about" Portsmouth.

FACULTY WILL RAISE POTATOES

(By Associated Press)
Durham, April 20.—Twenty-five members of the faculty of New Hampshire College have joined in the co-operative potato growing project and a two-acre tract of land has been prepared for planting. The professors will do all of the work on this land.

P. A. C. MEMBERS, ATTENTION!

Members who are selling carnival and bazaar admission tickets are hereby notified that "returns" must be made by 8.30, Monday evening, April 23. All such tickets not returned to the ticket committee by that hour will be counted as sold and will be charged up and collected for from members holding them. Per order, TICKET COMMITTEE.

(By Associated Press)

While the French advances on Thursday night were not so spectacular as those preceding they nevertheless gained considerable ground in the great battle being waged against the German lines from the Aisne to Champagne and great progress was made in this sector. To the northwest of Soissons where the line has been gradually forced back the French are still forcing it backwards nearer the important railroad center at Laon, a strategic point of great importance in the control of this sector. The French forces under General Neville are making slight gains on other points, say the official statements, characterizing the gains as "considerable."

The German attempts to counter attack have been made with great determination but they have been unable to make any impression on the new lines

drawn by the French. New pressure has been thrown at the French line without success and the French appear to be certain to drive the Hindenburg line completely out of this salient. The advance on Laon, according to the official reports, is great.

On the Rheims-Laon sector of the line the action is carried on without cessation. On points north of Rheims, German attempts to hold back the French have been without success. Several first line trenches were carried in this section.

East of Louvain, in the section of the Champagne, the result of the German attacks have failed, the Germans being badly cut and forced to abandon their attacks.

During the night the British made some gains in the Arras-Lens line and are nearing the time where an attempt will be made to enter St. Quentin.

WILL NOT FORCE MARRIED MEN OUT OF SERVICE

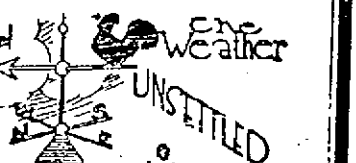

(By Associated Press)
Washington, April 20.—Discharge from the national guards of the several states solely because the enlisted man is married will not be forced by the war department provided the enlisted man has an independent income which will allow his family to live without his immediate support. It is not the intention of the war department to force these men out of the service and the original order was made only with the desire to prevent the families of enlisted men becoming public charges.

AMBASSADOR ELKUS ILL WITH TYPHUS

(By Associated Press)
Washington, April 20.—Advices to the state department received today say that Ambassador Elkus is suffering from an attack of typhus and that every possible medical attention is being given him. The report said that Mr. Elkus contracted the disease probably while visiting soup kitchens.

FIRST COMPANY TO REMAIN HERE

The story printed in the morning papers that Coast Artillery Company No. 1, N. H. C. A., now quartered at the local armory had been sent to Lowell, Mass., is without foundation. The company will continue drilling here until they get full equipment. The ranking officer is Major Kilbridge of Lowell, Mass. The local company has much to do before starting on regular duty.

Forecast for Portsmouth and vicinity—Unsettled, probably local showers Friday and Saturday; somewhat warmer; fresh east shifting to south winds.

ASK BOARD TO RECOGNIZE HIS DUTIES

(By Associated Press)
New York, April 20.—Howard Elliott, president of the New York, New Haven and Hartford railroad, has asked the board of directors to rearrange his duties in connection with the management of the road in view of the fact that his duties in connection with the Council of National Defense will occupy a great amount of his time and attention. He made this announcement today. Mr. Elliott said that he did not intend to retire as head of the railroad, but he must have his duties lightened.

Pittsfield, Mass., April 20.—Mrs. Margaret Hewitt and her sister, Mrs. C. Noistering, were arrested today at Springfield and brought to this city on a charge of murder in connection with the death of Miles Hewitt, husband of Mrs. Hewitt. Lincoln McKinley Grant was arrested last evening on a charge of first degree murder and the police say that he has made a confession.

OLD TIMER VICTOR IN MARATHON ROAD RACE

William J. Kennedy, a Veteran, Takes First Place in Annual Event, Other Places Also Taken by Veterans in the Game

(By Associated Press)
Boston, April 19.—A grey haired brick layer, William J. Kennedy of New York, won the twenty-five mile American Marathon this afternoon, outdistancing fifty younger men in the annual classic event of the Boston Athletic Association of Ashland to the B. A. A. Club house on Essex street. It was a day of the veterans, none of the younger men coming within the placing mark. Sidney K. Hatch of Chicago, known as the "man of a hundred marathons," finished second. While Clarence H. DeMar, of Boston, winner of the Boston Marathon in 1911, gained third place. Hannes Kolehmainen of New York, an old Olympic star of lesser distances, won fourth prize. Although the time was not fast Kennedy ran well and led the field practically the entire distance, taking

the lead as soon as the weeding out work finished a few miles from the start. Kennedy finished the twenty-five miles in fine condition, crossing the line 2 hours, 28 minutes, and 37 1-2 seconds after his start at noon. This time is more than seven minutes behind the record.
Except during the early stages Kennedy had the race in his own hands, taking the lead early. In the game when the scattering out of the runners began, Kennedy was formerly a runner from Chicago. He left a job of laying bricks at Pawtucket, R. I., at noon last Saturday and won a ten-mile race in Boston in the afternoon. Without further training he started at noon today and captured the honors from a field of more than fifty runners, many of which have been in careful training for the event for weeks. Kennedy signed in the marathon last year, finishing in sixth place.

EAT LESS MEAT IF BACK HURTS

TAKE A GLASS OF SALTS TO FLUSH KIDNEYS IF BLADDER BOTHERS YOU

Eating meat regularly eventually produces kidney trouble in some form or other, says a well known authority, because the urea acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, cold stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.
"The moment your back hurts or kidneys aren't acting right, or if bladder bothers you get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.
Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

"FREEDOM OF THE SEAS"

(By Associated Press)
Philadelphia, April 20.—Force against force is the only restraining influence which can curb the violations of the rules of war which have grown out of the present great conflict, said Chandler P. Anderson, of New York, in an address on "Freedom of the Seas," delivered today before the American Academy of Political and Social Science. Mr. Anderson has frequently acted as counsel for the State Department in negotiating treaties and has been a member of tribunals for the adjustment of international disputes. "The usages and customs of war," he said, "seem to have been based for

The H. G. L. whist club recently met with Mrs. James P. Coleman. Favors were awarded and refreshments served.

The plan was simple and adroit. If it could be made to appear that Great Britain's blockade was the responsibility of Germany's submarine warfare, then, in order to settle that question, it might be possible to arouse the United States to resentment against the English blockade, which the United States had characterized as unlawful. It was anticipated that Great Britain would refuse to abandon the blockade, and it was hoped that a refusal by Great Britain to do this would result in the adoption by the United States of an embargo against the exportation of war munitions to the Allies, which was the result chiefly desired by Germany. This plan failed.

FAST DAY WAS OBSERVED IN QUIET MANNER

USUAL HOLIDAY FESTIVITIES WERE LACKING IN THE CITY AND CHURCHES HELD SPECIAL SERVICES

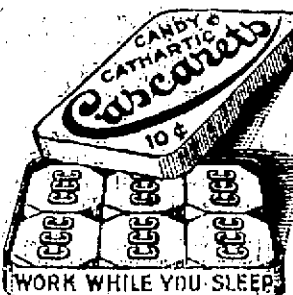

Fast Day was observed yesterday in Portsmouth and it will pass as one of the most quietly observed holidays for years. The usual holiday activities, such as baseball games, horse races, and other sports did not take place, the only organized observances being held by the churches, several holding special services and one Union service was held in the morning. Special services were held at Christ church and St. John's Church.
The unusual quiet may in part be due to the fact that business was not suspended at the navy yard, all departments working as usual and on full time, due to the great amount of work on hand which the department desires to be completed without delay. It was notable that a number of men whose business was suspended for the day spent the time in preparing lots for garden purposes and in working about their homes.
Few people took advantage of the fine weather to visit any of the beaches although some made the trip to Hampton. The weather was ideal and the aid had the call to the open. A large number from the city went to South Berwick and witnessed the Pre-Parade Parade which was held there.

In the evening several dances were conducted, no other celebration having been planned. At Newburyport a game was played between Portsmouth and Newburyport high school. Base ball teams and was won by the local team, 5 to 1.

YOU'RE BILIOUS! CLEAN LIVER AND BOWELS TONIGHT

Don't stay headachy, sick, or have bad breath and sour stomach.

Wake up feeling fine! Best laxative for men, women and children.

WORK WHILE YOU SLEEP

Enjoy life! Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, breath offensive and stomach sour. Don't stay bilious, sick, headachy, constipated and full of cold. Why don't you get a box of Cascarets from the drug store and eat one or two tonight and enjoy the finest, gentlest liver and bowel cleansing you ever experienced. You will wake up feeling fit and fine. Cascarets never gripe or sicken like salts, pills and cathartics. They act so gently that you hardly realize you have taken a cathartic. Mothers should give cascades, sick, bilious or feverish children a whole Cascaret any time—they act thoroughly and are harmless.

KITTERY

Kittery, April 20.—The annual meeting of the Ladies' Aid was held on Thursday afternoon at the Government street vestry and the following officers were re-elected: President, Mrs. Wallace Rounds; vice president, Mrs. Elmer Hall; secretary, Mrs. Ida Marshall; treasurer, Mrs. Frank Robinson. STATE SENATE PASSES ADDITIONAL WAR FUND

Also Make Provisions for the Relief of Families of Soldiers to the Extent of \$35. a Month

(By Associated Press)
Concord, April 18.—Provisions for raising an additional 500,000 to the \$500,000 already passed for the use of the governor in the defense of the State of New Hampshire was passed by the Senate this afternoon. The measure has already been passed by the House of Representatives. This action, when it becomes a law by the signature of the Governor will bring the New Hampshire defense fund up to \$1,000,000.

The Senate also passed this evening the bill received from the House providing a fund for the aid of dependent families of soldiers in the service of the State or Nation, limiting this relief to \$35.00 a month to each family.

MURDER REMAINS MYSTERY AFTER A YEAR'S TIME

GEORGE STILLSON LOST HIS
LIFE LESS THAN 100 YARDS
FROM HIS HOME A YEAR
AGO TONIGHT

Just one year ago tonight, April 20, at 11:45 o'clock, George W. (Jockey) Stillson, was struck down by an unknown assassin on West street, near the corner of Court, less than 100 yards from his home, and was dead at the Portsmouth Hospital thirty minutes later. The announcement of the murder in the morning shocked Portsmouth and it was thought that the speedy arrest and conviction of the murderer would follow.

At a meeting of the city council a few days later the city of Portsmouth offered a reward of \$500 for information which would lead to the arrest and conviction of the murderer, and a reward of \$600 was subscribed by members of the crew of the U. S. S. Washington now the U. S. S. Scuttle, for the same purpose.

Theories of all sorts were held as to the possible solution of the mystery and as week after week passed and no definite results came from the investigation of the police people began to come to the conclusion that the murder would never be solved. After a year has passed Portsmouth remains as much in the dark as ever as to who killed Stillson.

MAY DELAY THE CONSTRUCTION OF BIG SHIPS

(By Associated Press)
Washington, D. C., April 19.—Temporary suspension of construction work on five battle cruisers, and also on other capital ships now under construction is being considered by the Navy Department, according to a

statement made today by Secretary of the Navy Daniels. The navy department is considering this move as a means of speeding up the construction of the great merchant fleet which is to make good the submarine losses. No orders have been issued as yet to delay construction, but these may follow. The department has no wish to delay the work of building the great merchant fleet and will give this department of preparation for the carrying on of the war every possible help.

THIS WILL MAKE MILLIONS HAPPY

Any corn will dry up and lift
out, says a Cincinnati
authority.

Let folks step on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this authority.

He says that a few drops of a drug called freezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts out without pain.

This drug is sticky but dries at once and is said to simply shrivel up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

LOYAL LABOR DEMANDS JUSTICE

Urges Government to Assume Control of Necessities and to Fix Prices.
At the last meeting of Portsmouth Central Labor Union, President Richard A. Cooney appointed a committee consisting of Messrs. Clarke, Cogan, Chandler, Gates and Woodman, for

the purpose of proclaiming the loyalty of local labor organizations and protesting against the rising cost of living. The committee has issued the following address:

To His Excellency the President of the United States and to the Senators and Representatives of the Federal Congress:—
It is with a profound sense of duty to their fellowmen that the members of the American Federation of Labor and affiliated unions have unhesitatingly acknowledged their allegiance to the Republic of the United States of America in its avowed purpose to become the arbiter of the democracy of the world in its struggle against Autocracy and entrenched militarism.

In pledging their unwavering loyalty to the government of the United States the Allied Craftsmen have done so with a full knowledge that upon the shoulders of the working people must rest the most grievous burdens of this righteous war to secure the social, political and industrial freedom of humanity.

Having thus freely offered their lives and their labor in the service of their country, and having assured President Wilson that the Federal administration would not be hampered or harassed by internal strikes, strife and discord, the members of organized labor feel justified in asking that the proper authorities be empowered to enforce immediate and effective measures to conserve the natural, agricultural and industrial resources of the country and to curb, curtail and control the greed of the food speculators who would impose impossible prices for food and other necessities.

Patriotism yields to hunger and the history of the "Reign of Terror" tells the story—the result of unholy profit and inhuman exaction. If the working man must surrender his weapon of defense in industrial warfare, the mighty dollar should likewise be shorn of its power and be made the servant of the people and not permitted to become their master. Wages may not be increased, nor should the cost of the necessities of life be increased beyond the purchasing power of the wages of the artisan. The toilers of the land will not consent to be impoverished to enrich untold millionaires and the man of wealth should be compelled to serve the nation even as does the man of wages and made to subsist upon the same food, purchased at the same cost.

MILITARY DRILL NOW OCCUPIES STUDENTS' TIME

The students of New Hampshire State college are attending no classes this week but are devoting the entire time to military drill. The work begins at eight o'clock in the morning and the boys are not dismissed until four o'clock in the afternoon.

The various battalions go off on "hikes" in the morning, after which come gymnastics and bayonet practice. A short hike starts the afternoon program which finishes with dress parade, headed by the college band.

The college is for the time being under military rule and guard squads relieve each other during the night hours.

The boys are preparing for government inspection and they present a fine appearance in their uniforms. They are well trained and their progress along military lines has been rapid and the results of their efforts are commendable.

Many people from this city go to Daphnium to watch them drill at intervals and the sight is most interesting and inspiring.

FURTHER ACTION LIKELY TO COME IN COWLES CASE

MRS. COWLES ARRIVES IN BOSTON WITH HER TWO CHILDREN—DR. COWLES COMING HERE TO CONTINUE CASE.

Boston, April 19.—With the arrival in Boston this morning of Mrs. Florence Jaquith Cowles with her two children, Virginia and Harold, the scene of the fight for the custody of the two girls is ready to shift from Williamsburg, Va., to Portsmouth, N. H., once more.

Not only is Mrs. Cowles now at the Brookline home of her parents, Mr. and Mrs. Harry J. Jaquith, but Dr. Edward S. Cowles her former husband and father of the children, has returned to New York and will later reach Portsmouth to combat any move on Mrs. Cowles' part to obtain permanent custody. He has appeared in the meantime, to the Virginia Supreme Court for a reversal of Judge Tyler's decision of last Monday, in which the latter upheld the jurisdiction of the New Hampshire courts.

THE OWNERS ISSUED LAST
WEEK.

(By Associated Press)
Lynn, April 19.—More than a score of shoe factories in this city are expected to remain closed tomorrow following a decision made by agreement between a number of the factory owners two weeks ago. Just how many operatives will be affected by the closing of the shops is not known as the names of the firms which will close were not made public. Conservative estimates, however, place the number which will be thrown idle at 10,000. The manufacturers gave as their reason for the proposed move the high cost of production due to the scarcity of leather and cost of other materials, the need of a readjustment of the royalty system for the use of machinery, and a readjustment of the wage schedule.

TAFT FAVORS SENDING ARMY TO EUROPE

FORMER PRESIDENT SAYS TO
SEND A MILLION MEN TO FIGHT
WITH ALLIES AGAINST GER-
MANY.

(By Associated Press)
Boston, April 19.—William H. Taft, former President of the United States, the principal speaker at a patriotic meeting in celebration of Patriots Day, said there was the greatest reason when "we should send a million and more men" to France to assist the allies in fighting Germany. "The United States has entered the lists," he said, "in a world cause of a protest against Prussianism and in behalf of a permanent peace. We will win shoulder to shoulder fighting with the English, French, Italians and Russians, and by winning we will win world peace when the Houses of Hohenzollern and Hapsburgs are destroyed."

FAVORABLE REPORT ON NAVAL BILL

(By Associated Press)
Washington, April 19.—The administration bill to increase the enlisted strength of the navy from 87,000 to 150,000, and the marine corps from 17,400 to 30,000, was favorably reported today by the Senate Committee on naval affairs. The House has already taken action on the bill and administration leaders are confident that the Senate will pass the measure without opposition.

CATHOLICS ARE PLEGED TO SUPPORT NATION

(By Associated Press)
Baltimore, Md., April 19.—The Archbishop in the United States of the Roman Catholic Church addressed a letter today to President Wilson in which he embodied the support of the Catholic hierarchy, the people and the clergy, to President Wilson and the Country in the declaration of the state of war between the United States and the German Imperial Government.

WEALTHY YOUTH READY FOR WAR.

There's more to this cigarette than taste. A heap more. Most any cigarette can please the taste—somebody's taste.

But this Chesterfield Cigarette, in addition to pleasing the taste, gives you a new kind of enjoyment, in cigarette smoking—

Chesterfields let you know you are smoking—they "SATISFY"

And yet, they're mild!

It's all due to the blend—the blend and the quality of the Imported and Domestic tobaccos. And, remember, it's pure, natural tobacco—no so-called "processes" or artificial fussing—just natural tobacco.

And the blend can't be copied.

Words can only tell you these things—it takes the cigarette itself to prove them. You'll be glad you tried Chesterfields. Do it today.

GOVERNMENT HAS TAKEN WATERFRONT

(By Associated Press)
Hoboken, N. J., April 19.—For war purposes the Federal government has

taken over that part of the water front which was formerly the steamship property of the Hamburg-American, and the North German Lloyd lines located here, according to a statement issued by Mayor Griffin this afternoon.

one of America's richest young men arrived here today from New York to settle his business preparatory to enlisting as private in the 1st Illinois Cavalry. He is twenty-three years of age and is married. Young Field will receive \$15.00 a month.

LOCAL DRUGGISTS MAKE MANY FRIENDS

C. E. Brewster & Co., of Dover, N. H., report that they are making many friends through the quick benefit which people receive from the use of Abbey's Effervescent Salts. This remedy became famous by proving itself the most thorough bowel cleanser known, acting on both the lower and upper bowel. Just one dose of Abbey's Salts relieves constipation and gas in the stomach almost immediately. Abbey's, by the way, is packed in the new size bottle, but at the same old price.

We suggest that you call at your druggist's and get a bottle of these

Portsmouth, N. H., Friday, April 20, 1917.

The Farmers' Part.

To tillers of the soil especially is spring always a pleasant and inspiring time of the year. With the winter past and the earth coming to life for the fruitage of another season it is a pleasure for the lover of life in the open to turn over the hard packed soil and commit to it the seeds which, with proper care, mean a few months later abundance for man and beast.

All having any appreciation of the wonders of nature enjoying seeing things grow, and the tiller of the soil has the added pleasure of assisting the growth of those things without which the extermination of the race would quickly ensue. Every living thing, human and dumb, must be fed. The earth and the elements are always ready to do their part, and with the proper co-operation of man there is sure to be sufficient for all. There may be drawbacks and failures here and there, due to conditions beyond the control of man, but the earth as a whole never fails to provide for the wants of all of her children.

And this year there should be unusual satisfaction in cultivating the land. Conditions are such that there will be an acute demand for everything that can possibly be raised, and prices will undoubtedly be such as to insure substantial returns to agriculturalists and gardeners the country over. The awful war in which the country has become involved will take many workers from ordinary pursuits to other fields of action, and a serious duty devolves upon those who are left at home. Especially to the tillers of the soil comes a call that must not be ignored. The world must eat, and what is eaten must come from the ground. This means that those who work on the land should put forth their best efforts this year. In this course there will be both business and patriotism, a combination which should be welcome to every right-minded man.

All hope the terrible struggle which is the cause of the exceptional conditions that prevail may be brought to an early conclusion, but no man knows when it will end. The only safe thing to do is to prepare for the worst, and for the proper sustenance of the people in war or in peace. It is a time when great responsibilities must be borne by those in authority and great dangers must be faced by the men in arms. The tillers of the soil should be not less faithful to their duties, and they will not be.

Back Up the Chamber of Commerce.

It is now up to all our business men and citizens generally to back up the Chamber of Commerce. The organization was completed on Wednesday and the officers named are all well known and will do their best. The city needs the support of a united body of men like this and if they are given proper support much good to all will follow. Let's give the new Chamber of Commerce a fair chance and let our support be generous and with all the force at our command. Success to the Chamber of Commerce!

Was There a Deal?

It is hinted from Concord that the railroad machine smashed the license law in order to win the no-license vote for the railroad. Looks like a deal somewhere.

Now there is complaint that the price of American flags has advanced tremendously since the declaration of war, and a resolution has been introduced in the Senate directing the Federal Trade Commission to investigate. The sudden and unusual demand for flags would naturally send up the price to some extent, but the people do not want to be robbed on the evidence of patriotism.

It is probable that the proposition to enlist men for working on the land, the same as they are enlisted for the army and navy, will amount to little. There is now every reasonable inducement for those ready to till the soil, and it is to be doubted that any benefit would accrue from attaching military terms to peaceful pursuits.

A dispatch from New York says the price of flour in that city advanced 75 cents a barrel in one day recently because of a panic on the part of housewives which resulted in unusual buying. One of the hardest things to do just now is to keep cool, and those who cannot do this should keep as cool as they can.

Mayor Curley appears to think that the political game is more important to him and takes precedence over the best interests of "Our Country." He can not see his patriotic duty excepting as his political necessity bobs up.

The legislature has adjourned and it may be said at this time that the old machine never worked any smoother.

Governor Henry W. Keyes has the courage to do his duty as he sees it at all times.

U. S. DEPARTMENT OF LABOR
WANTS MEN

A co-operation of the U. S. Department of Labor through its employment service and the U. S. Civil Service commission has engaged itself in the task of replacing in private establish-

ments the workers being drafted in increased numbers into the navy yards, ordinance and other government plants and offices.

The agreement between the two branches provides that the commission is to ascertain from every person engaged for any government work, information regarding his last employment, salary and the employer's address. This will be furnished the employment service which will get into immediate touch with the private employer and help him replace the worker so that so far as possible no industry will be crippled by the government's activities.

To facilitate this work a representative of the U. S. employment service may be found at the U. S. Civil Service commission's rooms in the post office and sub-treasury building, Boston, Mass., ready to receive applications by mail or in person for work and workers.

Letters from the People

An Important Event.

Editor:—The affixing of the government's signature to the prohibition bill is undoubtedly the most important event in New Hampshire since 1789, when as the necessary ninth state, she adopted the federal constitution, and so inaugurated our history as a nation. The toilers for humanity in the Granite State may well join in mighty chorus, and sing:

"Mine eyes have seen the glory of the coming of the Lord."

Such a law is a splendid justification of Senators Blair and Gallinger, the first and last senators to introduce prohibition legislation in Washington.

The legal seal of New Hampshire is the Portsmouth navy yard, but long before that was adopted God fashioned her seal in the mountains, and

"Swung her sign in view,
From Pikes' lofty crest to greet the eye;

Proclaiming to the world her pledge to grow
A type of manhood, strong, and true
As this grim face that scans the sun-

lit sky,
While endless generations pass below."

Now may she surpass her glorious record of the past, and fulfill the divine expectation.

Sincerely yours and His,
EDWARD A. TRICK.

Concord, April 19.

Present War Is No Exception
Editor Herald:

The pacifists have beguiled themselves with the belief that the world is progressing toward the universal brotherhood of man and toward universal peace. Nathan can be further from the truth. There is no evidence that peace can be made universal; warfare is not decreasing. If the principal European nations be lumped, 52 per cent of their time has been spent in peace and 48 per cent in war. England in 300 years has spent 419 years in war, or over 62 per cent of her time. France in the same period has spent 373 years at war, in the 12th century England fought over 54 per cent of the period, while in the 19th century she fought 53 1-2 per cent, not much of a reduction. France during the corresponding centuries fought 36 1-2 per cent and 35 per cent. Nietzsche, the extreme individualist, and Ruskin, a benevolent socialist, both applauded war. So long as commercial interests of nations clash there will be war. The majority of wars between great nations of Europe have arisen from economic reasons. Ledy reduced the causes of war to three: first, religious; second, economic; third, political. Yet peace has been claimed to be the ultimate aim of every nation that fights to conquer. The German European war is no exception to the law of the ages.

Lang, Laconia; surgeon, Dr. P. A. Sprague, Concord; chaplain, U. S. Duncan, Concord; marshal, Timothy Sullivan, Manchester; chief of staff, Charles L. Mason, Concord; Judge advocate, Edward H. Perry, Newport; Inspector, John Clifford, of Portsmouth; adjutant, Harry C. Lougee, Concord; quartermaster, James Corrigan, Concord; patriotic instructor, Edward F. Ruffles, Claremont; historian, Fred Morse, Keene.

Editorial Comment

"The Shot" Is Still Heard

(From the Worcester Telegram)
Massachusetts provides the art to urge New York schoolboys to learn to shoot. "The minute man" status at Concord is copied in miniature at the expense of S. R. Guggenheim, and presented to the Public Schools Athletic League to be awarded annually in duplicate to students who show the most improvement in marksmanship.

The Advantage of Conscription
(From the New York Tribune)

National service, which we call conscription, means calling upon every young man to give a year or two years to training in the army. It means that when war comes we shall not only have trained men, but that we shall not follow the unfortunate example of the English and sacrifice our best and bravest in the early period of learning. There is no tragedy in all the English story, splendid as are many of its pages, greater than the tragedy of the untold thousands of the best, the bravest and the most promising of the English young men who were sacrificed to national inexperience in all the battles that lie between Troy and the early stages of the Somme.

It is a fact well recognized that a call for volunteers brings instant response from all that is best in the mind of a nation, and finds its earliest response from those who are least fitted to survive and whose survival is of least value to the nation. Conscription takes everyone. It does not make a selection of the best. Volunteering takes the best and leaves it for conscription, which always comes afterward, to bring up the least desirable.

Re-Name the Interned Ships
(From the Hartford Courant)

If new names are to be given to the seized German ships, the substitution of Verdun for Vaterland in the case of the largest of them might not be amiss. It is the suggestion of a member of the French colony in London, made to Com General Skinner. If the Vaterland is to become the Verdun, the Kron-

prinzessin Cecilie might be renamed the Queen Mary.

For Lamp-Post Ornaments

(From the New York Commercial)
Former Ambassador Gerard tells us that the German Government labors under the delusion that three hundred thousand German reservists in this country, of whom thirty thousand are in New York city, will rise up and paralyze the President's arm. Before he left Berlin Mr. Gerard told German officials that we have a lamp-post for each German reservist to decorate. At the present rate of "accidents" in munition plants some of these reservists seem to be qualifying as lamp-post ornaments. As long as Germany can hope to weaken the United States by internal dissensions or induce Congress to reject the President's plans, these pro-German newspapers will keep up this anti-English campaign and try to tie our hands under cover of their hypocritical cry of "America First."

Reciprocity

(From the Boston Post)

The announcement by the Canadian government of an order placing wheat upon the free list looks to the immediate realization of reciprocity with that country in respect to trade in this product.

According to the provisions of the United States tariff, a duty of 10 cents a bushel on wheat, of 45 cents a barrel of flour and of 10 per cent ad valorem on other wheat products, is levied upon such commodities from countries which maintain a tariff against like importations from our country. This action by Canada therefore sets open all our ports, automatically, for the entrance of Canadian wheat.

Do we want it? Will the Canadians care to sell it to us? In spite of the war demands upon Canada and of the American duty charge, wheat has been exported from the Dominion into the United States because of the higher rates obtainable here. There has been difficulty in sending it abroad, and so far this has been to our advantage. Now we face the changed conditions of a free exchange, and the forecast of our agricultural experts at Washington is for a deficit in the product of our western fields.

We may find this instance of practical reciprocity under different conditions illuminative as to its broader advantages.

GIRLS' CLUB NOTES

Now that the pop concert is over, the next social activity is the party on Thursday evening, April 26th at which time the Dover and Newmarket clubs will be entertained by this club.

The entertainment committee, consisting of Mrs. Margaret Corey, Grace Carey, Alice Ryan Ethyl Ryan, Alice Slossberg, Maud Trefethen and Mac Coughlin are making their plans for the good time.

We are assured of at least 25 girls who will come from Dover and we trust as many more from Newmarket and it will be our duty to give them a royal welcome and grand good time.

Tonight at 7 o'clock there will be a rehearsal for the play. A full attendance is desired.

HAMPTON

Hampton, April 20.—At the district meeting of the Rebekah lodge on Tuesday evening the following grand officers were present: Margaret H. Waldron, Kate K. Davis, Annie L. Roger, and Clara E. Long.

An auxiliary of the American Red Cross has been formed in town. This is just the opportunity for which you have so long been waiting to show your patriotism in a real practical way. There is work for everybody to do—sewing, knitting, and first aid classes. The organization needs more members and more funds. Whether or not you are now interested, won't you please come out to the next meeting at the town hall, Thursday, April 26, at 3 o'clock.

GRAND ALLIANCE BETWEEN THE UNITED STATES

And the Democracies of Europe Is Predicted by New York Editor.

(By Associated Press)
Philadelphia, Pa., April 20.—The "grand alliance" between the United States and the democracies of Europe against autocratic aggression as predicted by Germany gives rise to the hope that the war will lead to a federation of the world, in the opinion of Walter Lippmann of New York, associate editor of the "New Republic," expressed today in an address on "America's relations to the World Conflict," before the American Academy of Political and Social Science.

"I know it sounds a little old-fashioned to use that phrase, the Federation of the World," said Mr. Lippmann, "because we have used it so long in empty rhetoric. But no other idea is big enough to describe the alliance. It is no longer an offensive-defensive military agreement among diplomats. It is growing into a union of peoples determined to end forever that intriguing, adventurous nationalism which has torn the world for three centuries."

"The war is dissolving into a tremendous revolution. A few months ago we still argued about the Bagdad corridor, strategic frontiers, colonies. These were the stakes of the diplomats' war. The whole perspective is changed today by the revolution in Russia and the intervention of America. The scale of values is transformed, for the democracies are unloosed."

"We are at war to defeat the German government, to destroy its prestige, to deny its conquests, and to throw its back at last into the arms of the German people, marked and discredited as the author of their miseries. It is for them to make the final settlement with it."

"We can win nothing from this war unless it culminates in a union of liberal peoples pledged to co-operate in the settlement of all outstanding questions, sworn to turn against the aggressor, determined to erect a larger and more modern system of international law upon a federation of the world. That is what we are fighting for at this moment, on the ocean, in the shipyard and in the factory; later, per-

haps in France and Belgium, ultimately at the council of peace."

MUST USE RADIO AS LITTLE AS POSSIBLE AT SEA

The naval communication service has issued the following orders under date of April 11, in regard to radio communication.

1. For the present radio apparatus on board merchant vessels within the three mile limit should not be dismantled or sealed until they reach port as it is believed desirable that such steamers, especially coasting steamers, be able to report the sighting of submarines, etc.

2. When this question is taken up by steamship companies, they should be informed that the apparatus should not be used within the three mile limit, except in cases of very great urgency, such as the sighting of submarines, etc.

3. Vessels on the Atlantic coast when in port, should have their apparatus sealed and their antennae lowered, under the same conditions as have prevailed under the neutrality regulations.

HOME WEDDING

Miss Wentworth Becomes the Bride of Walter A. Spencer of Newfields.

A very pretty but quiet wedding occurred Wednesday afternoon at the home of Mr. and Mrs. Herbert H. Foss, South Elliot, when Miss Nettie H. Wentworth became the bride of Walter A. Spencer of Newfields. The ceremony was performed by Rev. William Fougere, pastor of the Methodist church in the presence of only the immediate family of the bride. The bride party stood against a background of ferns, the attendants being the young cousins of the bride, Master Gerald D. Foss who acted as ring bearer and Miss Helen S. Foss as flower girl. Miss Wentworth was gown in white silk muslin trimmed with point de satin lace and wore a jacket of white satin. Her bouquet was of white roses.

The bride has made her home with her uncle, Mr. Foss, for nearly eight years during which time she became a member of the Methodist church and also of the Epworth league, acting as treasurer of the last named association for a number of years. She always proved a willing worker in church circles and was a general favorite with her young friends.

The couple received many useful and pretty gifts from their friends. The going away gown was a navy blue poplin, tailor made with hat to match. Their departure from the house was marked by the usual shower of slippers and a party of friends boarded the car and deluged them with confetti. After a short wedding trip they will make their home in Newfields where the groom is an employee of the Newfields Iron Foundry. They have the best wishes of their friends for a long life of happiness and prosperity.

CHAMBER OF COMMERCE IS FORMALLY ORGANIZED

Fred M. Sise Elected President of The New Organization--Articles of Incorporation Will be Sent to Secretary of State at Once for Charter--A Live Organization for the Live Community

With a membership of 165 which is subscribed at an annual income from dues of nearly 3000 the Portsmouth Chamber of Commerce was formally organized on Wednesday evening at the County Court House on State street. Articles of Incorporation were signed by fifty-one members present at the meeting and these will be the charter members of the organization when the charter is granted. Application to the Secretary of State for the charter will be filed at once.

The meeting was not marked by any great demonstration but it was extremely businesslike, those present conducting the business of completing the organization, electing their officers, adopting the by-laws. The quiet manner in which the organization was perfected was impressive and held promise of much for the future welfare of the city and its immediate surroundings.

Fredrick M. Sise was elected president of the Chamber of Commerce to serve in that capacity until the next annual meeting which will be held on the second Wednesday in April, 1918. Mr. Sise has served as president of the Portsmouth Board of Trade for several years and his election to the head of the new and greater business

association is a fitting endorsement of the manner in which he has conducted the affairs of the smaller organization, which had done valuable work in its limited capacity.

Now that the chamber is organized the officers are asking the support of all of the individual members and that those cooperate with the officers and Board of Directors in making the chamber the great force which it must be before it can be effective. The support of the entire membership must be given and by concerted action the Portsmouth Chamber of Commerce can do the greatest amount of good in making Portsmouth and vicinity a live business community. The officers elected in addition to Mr. Sise as president are:

1st Vice President, R. Clyde Mangerson.
2d Vice President, F. W. Hartford.
Treasurer, John K. Bates.
Temporary Clerk, R. J. Costello.

Board of Directors, Frank A. Belden, John G. Sweetser, Edward Seybolt, Fred W. Lydston, Fred A. Gray, R. L. Costello, Henry P. Payne, Dr. John H. Neal.

All of these officers are elected to serve until the next annual meeting in April, 1918.

The meeting was called to order at 8.00 o'clock with Mr. Sise acting chairman and he was later elected as the temporary chairman after the charter was signed. Raphael L. Costello was elected temporary clerk of the meeting. In calling the meeting to order Mr. Sise stated the objects of the meeting, outlining the work which was to be done in perfecting the organization. The officers and the Board of Directors will meet within a few days for the purpose of organizing and electing their Secretary who will serve also as the clerk of the corporation. They will select a place for the conduct of their business and will attempt to complete their arrangements so as to begin work immediately, probably within two weeks. The object of the Chamber of Commerce is set forth in the articles of Incorporation which, together with the signers follows:

Articles of Association.
We, the undersigned, all being persons of lawful age and a designation of the Post Office address of each associate together and agree to organize, establish, and become a corporation under the laws of the State of New Hampshire, to be called

Portsmouth Chamber of Commerce.
The object and purpose for which this corporation is organized is to promote the growth and general prosperity of the City of Portsmouth, N. H., and vicinity.

The place where its business shall be carried on is the City of Portsmouth in the County of Rockingham and State of New Hampshire.

There shall be no capital stock, and a division of profits among its members shall not be one of its objects.

The officers to be elected at the first meeting shall consist of a President, a First Vice President, a Second Vice President, a Treasurer, a Clerk, and eight Directors, who together with the President, First Vice President, Second Vice President and Treasurer shall constitute a Board of Directors, all of whom shall hold office until their successors are chosen and qualified according to the By-Laws, hereafter to be adopted.

The first meeting of the corporation shall be held in the Probate Court Room in the Rockingham County Court House in the City of Portsmouth on the eighteenth day of April A. D. 1917, at eight o'clock in the afternoon. Dated at Portsmouth, N. H., April 18, A. D. 1917.

GERMANY DENIES U-BOAT ATTACK ON U. S. S. SMITH

(By Associated Press)
Berlin, via London, April 19.—Official announcement that there are no German submarines operating in the western half of the Atlantic was made today. The official statement said, "Reuters' telegram regarding the announced attempt by a German submarine to sink the U. S. destroyer Smith is only a frivolous means of an attempt to make it appear that the opening of hostilities was an act by Germany. As a matter of fact there are no submarines operating in the waters of the western Atlantic as yet."

SLACKERS CAN'T ESCAPE SERVICE BY MARRYING

(By Associated Press)
Washington, April 19.—Men of military age who have married since the start of the war between the United States and Germany cannot escape military service, the War Department announced today. The department had in mind in making the statement the desire to impress on all people that the United States would not consider any marriage as contracted at this time as making a man unavailable for government service while it is contemplating the raising of the army to fight against Germany. The department desires that no question of slackers will result from the increased number of couples who have contracted marriages since the start of the war.

The United States Government Uses Crawford Ranges

as Standard Equipment in
its Life Saving Stations

The high standard of quality and dependability of design guided government experts in their selection. These are the features that will guide you in selecting the right range:—

- Single damper regulating oven heat with one motion of an always cool knob at "Bake," "Check" or "Kindle."
- Scientifically constructed cupjoints that conserve the heat.
- The dock ash grate easily clears the fire of clinkers.
- Perfection of design and finish, long service and utility, distinguish Crawford coal ranges—or gas combinations.

This style range is made in five types—Home, Empire, Charm, Village and Fairy, and in various sizes.

VALUED PRESENTS GIVEN OFFICERS OF THE HOUSE

LEGISLATURE ADJOURNS FOR THE SESSION.—SPEAKER MORRILL AND OTHERS PRESENTED WITH GIFTS BY MEMBERS.

Concord, April 19.—The 1917 Legislature adjourned tonight after a busy session, during which time more important legislation has been enacted than is usual. The day in the House of Representatives was given over chiefly to the formal "bidding good-by" to the members and the officers.

With Representative George A. Wood of Portsmouth occupying the chair Democratic floor leader Major Brewster of Peterborough presented, on behalf of the membership of the House, Speaker Arthur A. Morrill with a handsome gold watch and chain as a mark of the good fellowship and appreciation and respect in which he was held. Speaker Morrill accepted the gift in a brief speech in which he expressed his pleasure at the harmony which had existed during the session between the House and himself.

Other gifts were given to the officers of the House, Clerk Harry M. Young receiving a pair of field glasses, Assistant Clerk Bernard W. Carey a graphophone with a large number of records, Sergeant at Arms Walter A. Ward a gold watch and chain, and suitable gifts were presented to the doorkeepers, House pages and stenographers.

During the afternoon the House members, previous to the adjournment, indulged in the singing of patriotic songs and the delivery of short patriotic addresses.

A special meeting was held by the Rockingham County Delegation at which it was voted to hold a reunion some time in September, the time and place to be selected by a committee of arrangements which was elected. The members composing the committee are Representatives Sanderson of Portsmouth, chairman; Shute of Exeter, Intelligencer of Hampton, Gilmore of Epping, and Terry of Rye.

A spirited discussion ensued yesterday over a resolution offered by Representative Badger of Portsmouth providing that all new enterprises public or private, including building construction that do not demand immediate prosecution for the public good should be postponed to the end that all possible labor be released for essential production work, especially for the needs of agriculture.

When of Concord doubted the expediency of adopting such a resolution. He felt that it might work to the disadvantage of labor not used for agriculture and would be likely to hold up some work of great importance.

Wood of Portsmouth opposed the re-

"BUCKLES" and VINEGAR
PICTURE many small piles of perforated lead disks of the above design but six inches in diameter. Call the disks "buckles" because they resemble the shoe buckles of Colonial days. Imagine the fumes of weak acetic acid (vinegar) and carbonic acid gas passing thru the holes in the buckles for more than three months, finally turning the blue lead white all thru.

The white-lead is ground and washed to snow-white cleanness. Then, mixed to a paste with pure linseed oil, it is packed in steel containers.

You now have a fair idea of how

Dutch Boy Red Seal White-Lead

the body of non-cracking, non-scaling house paint, is made from metal lead. Only the addition of more linseed oil is needed to make Dutch Boy White-Lead into good, old-fashioned paint—the kind that keeps houses bright and sound. The paint may be left white or tinted to suit your taste.

solution. He said that the Rockingham county delegation by a vote of 23 to 10 had just decided to construct at once a new farmhouse, long needed, at Brentwood, and the Badger resolution he felt would disturb the county commissioners from proceeding with it. Mr. Badger of Concord said that the people of New Hampshire had got to work in order to help pay the war tax. Many men over 45 years of age are not going to the war and no obstacles should be placed in their way from earning money. War was going to be carried on by the federal government and that government knew better than anybody else what regulations to enforce if they became necessary. He did not believe that a resolution as was now before the House was needed.

In answer to an inquiry Representative Badger said that it was inconceivable to him why any one should object to the resolution. It had been carefully drawn and the words "public good" fully explained the intent of the resolution. The resolution in no way aimed to suspend building operations at Brentwood or to stop any other work necessary for the public good. The resolution was in direct line with the proclamation of the president of the United States.

Lee of Concord said that in his opinion the resolution was unneeded. In view of the high cost of material and the expense of building, little building would be going on this year that was not of necessity. The more building operations there were in progress the better it would be for the state of New Hampshire for people will then be earning more money.

Put to vote, the resolution was lost.

UNITED STATES MUST TAKE AN ACTIVE PART

(By Associated Press)
Philadelphia, April 20.—The United States will be forced by circumstances out of its supposed isolation and must take an active part with the great powers of Europe in establishing the world's destiny, asserted Frederic R. Coudert, of New York, in an address on "Freedom of the Seas," delivered today before the annual meeting of the American Academy of Political and Social Science.

"There are," said Mr. Coudert, "certain limitations upon even the freedom of the seas as understood by the law of nations. These limitations are of a humanitarian character, and up to the present conflict have been respected by all. The destruction without preliminary visit and search is without basis in law and can have no justification. The plea of a nation using it that it is battling for the freedom of the seas is not devoid of elements of humor."

"Some great combination of the nations will take place and provision will be made for declaring outlaw the nations violating the world's peace. In that event, there will be a trusteeship of seapower, and the enlightened nations of the world, forming such combination will deal with the offending nations as the police deal with burglars. No question of belligerent rights will then arise."

"This day may not be so far distant as we may think, for the world war has largely changed the mental outlook of vast masses of opinion. America will doubtless wish to take part in some great movement which, by creating a better world system, will eliminate the old differences and dangers to the peaceful neutral and will lead to a new freedom of the seas, guaranteed not by phrases without force."

"Some arrangement with the democracies of France, Great Britain, and perhaps Russia for the settlement of the innumerable international disputes growing out of trade rivalries and undeveloped territory must be made. This is the work of the immediate future. Some trusteeship of land and sea power, for the promotion of peaceful relations among the nations of the world, will ultimately be found. Such a combination or super-alliance must busy itself with the formulation of a policy. This policy must in-

clude the recognition of the duties as well as the rights involved in the Monroe doctrine, and proper provision for the maintenance of the 'Open Door' in the East and elsewhere among economically and politically inferior people. In such an arrangement, America must willingly and for the protection of its own interests play a great, if not a predominant, part."

PYTHIANS MEET AT ROCHESTER

Rochester, April 20.—Fast day was observed by the Pythians day in Rochester, when the fifth zone convention and school of instruction were held at the city opera house, and the colors of the order floated from some buildings about town.

Rising Sun lodge of this city entertained. At 10:30 the grand lodge rank was conferred, the formal opening by Rising Sun lodge being at 4 o'clock, followed by the exemplification of the rank of page by Rindge lodge of East Rochester. At 6 o'clock there was a drill on Central square by S. S. Parker Company, U. R. K. P., of Farmington. Then followed a banquet with speech making, after which at 9 o'clock the proper methods of balloting were given by Harmony lodge of Farmington, followed by the exemplification of the rank of Knight by Waupesaquo lodge of Wolfboro. The formal closing was by Rising Sun lodge.

Many prominent knights were present, among them being Grand Chancellor Eugene B. Hayes of Farmington, Grand Vice Chancellor James Marshall of Dover, Grand Keeper of Records and Seal George R. Hazell of Manchester, Grand Outer Guard William Dearborn of Laconia, Grand Past Chancellor Everett W. Emerson of Alton and Past Supreme Representatives Charles M. Corson of Dover and John Young of Rochester.

ASKS PRESIDENT TO USE CARE IN LEGISLATION

OPEN LETTER POINTS OUT DANGER OF CURTAILING RIGHTS OF CITIZENS DURING THE WAR.

(By Associated Press)
Washington, April 19.—In an open letter made public today, and signed by twenty prominent people, including John Adams, Amos Pinchot, Rabbi Wise and others, President Wilson is asked to use care in preparing legislation which may be autocratic and will tend to deprive the people of the United States from exercising the rights of free speech, a free press and other rights which they have enjoyed since the formation of the Republic.

U-BOAT WATCHED 29 DROWN AND REFUSED AID

(By Associated Press)
London, April 19.—An unnamed Scandinavian steamer was torpedoed and sunk by a German submarine with the loss of all on board with the exception of the Commander, according to a Reuter's dispatch from Christiania today. Captain K. Olsen, commanding the ill-fated ship, stated that after firing her torpedoes the submarine rose to the surface and remained near the scene without offering assistance to the twenty-nine sailors who were found floating in the water. The U-boat remained in the vicinity until the last man had disappeared beneath the surface. Captain Olsen said that no warning was given before the ship was struck.

BEAUTIFUL HAIR, THICK, WAVY, FREE FROM DANDRUFF

Draw a moist cloth through hair and double its beauty at once.

Save your hair! Dandruff disappears and hair stops coming out.

Immediate?—Yes! Certain?—That's the joy of it. Your hair becomes light, wavy, buoyant and appears as soft, lustrous and beautiful as a young girl's after an application of Danderine. Also by this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, charming, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Danderine from any drug store or toilet counter and try it as directed. Trouble while it is only trouble.

SENATE MILITARY COMMITTEE ROOM IS BROKEN INTO

(By Associated Press)
Washington, April 19.—Capitol police officers discovered this morning that the doors of the Senate Committee on military affairs had been forced and broken open during the night. Clerks of the department on investigating reported that no papers were missing and Senator Swensen acting chairman of the committee also said that no important papers had been disturbed. The doors were splintered and smashed from their hinges and the Capitol police are at a loss to know why the breaking down of the doors had not been heard.

GUARDSMAN KILLED BY SHOT IN NIGHT

Trenton, N. J., April 19.—As the result of a shot fired during the night by some unknown person, Robert Price, 18, a member of the New Jersey national guard, on duty guarding a railroad bridge at Yardville, this state, was killed.

BIG PARADE AT SOUTH BERWICK ON THURSDAY

The town of South Berwick was at its best on Thursday when nearly 1000 people made up the premeditated parade which was a credit to the town, the committee in charge, and the several organizations taking part. The day was all that could be desired for this outward display of patriotism and everybody in the line of march was there with the spirit. Several hundred people from Dover, Portsmouth, Somersworth, Elliot and Kittery were in attendance.

SHAMROCKS ARE DEFEATED IN GAME AT MANCHESTER

The Shamrock baseball team of this city were hit hard in their first appearance on the diamond this season on Thursday when they faced the strong Sheridan A. C. of Manchester, who took them into camp by a score of 8 to 0. The Portsmouth team put up a good game but admit they were in fast company. A return game will be played here on Memorial Day and the local team are satisfied that they can turn the trick on the Queen City boys. The Shamrocks presented the following lineup:

R. Harney c, R. Keefe p, R. C. Sullivan 1b, P. P. Beardon 2b, J. Cronin ss, D. Driscoll 3b, A. Whalen cf, T. Sullivan rf, J. Moran lf.

OLYMPIA THEATRE NOTES.

Mme. Petrova has joined the Lasky company and soon makes her debut in an Egyptian picture, "The Undying Flame."

For ten days a corps of Triangle directors and camera men sent out by Thomas Ince, have been working at the United States Naval Training Station at Great Island in San Francisco Bay, on the film that is to be presented to the U. S. Government as a patriotic gift to assist in the recruiting for the navy. This is the first and only film that shows in every detail just exactly what Uncle Sam does when he takes a sturdy young American from his civil environment and turns him into an able seaman and first class fighting man.

Winifred Allen, who had one of the leading roles in the Paramount picture "Seventeen," will, in the future, be seen on the Triangle program.

William S. Hart has the leading role today and tomorrow in the Triangle-Kay Bee-Thomas production, "The Gun Fighter."

Margery Wilson, who has appeared

In many Triangle pictures, has the leading feminine part.

"The Gun-Fighter" is a typical Hart film, wherein he supplies the incidents and action such as none but Hart are capable of doing.

The Bluebird picture is "The Reward of the Faithless," introducing two new stars, Wedgewood Nowell and Betty Schade.

It is gratifying to note that this company has at last realized and answered the crying needs of the public—the story's the thing.

It is not generally known that the story is the first consideration of a Bluebird picture—the players being a secondary consideration.

Mrs. Vernon Castle and Milton Sills star in the twelfth episode of "Patria," entitled "Peace on the Border."

This timely chapter shows the capture of men known to be guilty of espionage against the United States.

Are you one of the hundreds who are following this serial?

A Triangle comedy, "His Deadly Undertaking," rounds out a bill for which the Olympia is so well known.

P. A. C. CARNIVAL

Information Note.

In response to numerous inquiries the P. A. C. Carnival Dance Committee desires to announce that during the first three dances the dance floor will be reserved for the following: namely, those in fancy costume, and the uniformed men of the Army, the Navy, the Marine Corps and the Militia.

The participants are not required to march. Following the first three numbers everybody regardless of habiliments, is cordially invited to take part in the dancing.

Prizes aggregating forty dollars in cash will be awarded as follows: 10.00 for best costume, Lady. 10.00 for best costume, Gentleman. (The above does not necessarily mean the most expensive.) 10.00 for best original or character make-up, Lady. 10.00 for best original or character make-up, Gentleman.

NOTICE.

The Progressive Committee of the Loyal Order of Moose will give a dance on Friday and Saturday evenings, April 20 and 21, at Moose hall, High street. Ladies, 16c; gents, 25c.

PUZZLED OVER THE ISSUE OF JUNK LICENSES

According to the report from Dover the police board of that city are to issue junk licenses to dealers instead of the city council, but up-to-date the police board of that city has not been made acquainted with the new law. There seems to be a question about such a bill being passed that applies to the state in general. A bill to that effect was introduced in the legislature which came in from the Nashua delegation and was later amended in the Senate and sent back to the House in a new draft. It is the opinion of many that no such bill covering the state exists as yet. The Portsmouth police are utterly in the dark on this matter.

WELL ATTENDED WHIST PARTY

The members of Constitution Circle, No. 291, Companions of the Forest held a largely attended whist party at U. V. U. hall on Thursday evening twenty tables being in play. At the conclusion of play prizes were awarded as follows: Ladies' first to Mrs. Margaret Shields; ladies' second to Margaret McAllister; gentlemen's first to A. H. Sawyer; second, to Mrs. Lonsky. The consolation to Mrs. Nellie Philbrick, Mrs. Louisa Brown. Refreshments of ice cream and cake was served. The committee in charge was composed of Mrs. Gertrude Merrill, Mrs. Mary Ryan, Mrs. Nellie Philbrick, Mrs. Annie Kennedy, Mrs. Mary A. Ryan.

THE HERALD HEARS

That lots of young men joined the militia because the companies were sold here and had many social parties.

That it is a different question now when war is on.

That Dover people are watching the navy yard searchlight at night.

That some restaurants are offering strawberry shortcake with fresh berries right from the can.

That whenever you meet three different men you are likely to get six different opinions on the war.

That it is surprising how many people with big feet do not feel comfortable until they get a conspicuous pair of white shoes on.

That some of our local secret service men might give us a tip on the movements of the night airplane.

That some women in the West want to sell on cats so the birds will know that they are coming.

That rats surely would second that motion.

That many a man is known as a dead one but he manages to keep out of the clutches of the undertaker.

That several Portsmouth people witnessed the preparedness parade at South Berwick on Thursday.

That many people are hunting up rooms in this city and now is the time to advertise the same.

That the horse on the parcel post delivery is some animal.

That the driver is no more acquainted with the daily route than the horse.

That he knows every foot of it like a book.

That he can be seen most every morning making his way with the wagon from the stable on Porter street to the rear of the postoffice to await the arrival of the driver and the first load.

That the new Home for Children and the Army and Navy building have not as yet appeared on the list of Portsmouth souvenir postcards.

That the Dover police board has appointed 11 special police.

That the state senate on Wednesday killed the bill to change Fast Day to Patriots' Day.

That the people will recognize Fast Day for two years more at least.

ATTENTION STORER POST, NO. 1, G. A. R., AND STORER RELIEF CORPS NO. 6

Invitations having been received and accepted to attend divine services at St. John's church on Sunday April 22, in honor of our American sailors, it is therefore eminently proper and fitting that every member of above mentioned organizations be present, and by their presence endorse this patriotic observance. OBITUARY

Mrs. Mary A. Rice.

The death of Mrs. Mary A. Rice, wife of Frank W. Rice, occurred at 3.30 o'clock Friday morning. She was born in this city Sept. 27, 1813, the daughter of Mr. and Mrs. Eliza Moore, and her early education was gained in the public schools of this city. Her marriage to Mr. Rice took place on Aug. 8, 1855, and during their long period of married life the devotion of both was most noticeable to those who knew them best. Mrs. Rice was a woman of many excellent qualities and her death will be deeply regretted by a large circle of friends. Although a great sufferer from December last, she bore her burden in an uncomplaining manner. She was a member of Orient Chapter, No. 22, Order of the Eastern Star. She is survived by her husband who has the sympathy of a large circle of acquaintances in his great bereavement. The funeral services will be held from her late home on South street on Monday afternoon and will be strictly private.

ANOTHER WAR SCARE EXPLODED

A local paper, not the Herald, one day this week published a hair raising story about a bomb being found on the Dover Point bridge. In conversation with Station Agent Edward Graham, of Newington, who is also the care taker of the bridge, it was learned that the story arose from the fact that one of the large globe lamps provided by the war department for use at the bridge had gone out and had been hauled up on the bridge to be attended to. While it was there an auto party from Dover came along and insisted that the lamp was a bomb. Not being satisfied with Mr. Graham's calm demeanor over the bomb question, they reported the fact of their great discovery (?) to both the police of Dover and this city.
